High Volume Digital  
Colour Production

imPRESSive results with  
real versatility

Production environments enjoy added choice thanks to the imagePRESS C6000. This powerful engine delivers exceptional versatility for your print applications, with amazing image quality that looks and feels like offset production.

imagePRESS C6000

COLOUR

**Incredible quality**

Vivid colours and outstanding pin-sharp images that look and feel like offset production.

**Precision printing**

Precision printing with automatic page-by-page image and density controls provide exceptional consistency for true “production safe” colour.

Exceptional consistency

**Highly innovative**

Canon’s V-toner with its ultra-fine particle size and oil-less fusing characteristics combine with enhanced image control technologies to provide gloss optimisation for an optimal finish on all media.

**Highly Productive**

Impressive production speeds up to 60 ipm per minute are achievable with media up to 135 g/m<sup>2</sup>. The imagePRESS C6000 can also handle weights up to 300 g/m<sup>2</sup> for added versatility.

A sizeable 10,000 sheets paper supply with up to 8 different sources is complemented by air-assisted feeding for exceptional reliability and over 2 hours of uninterrupted production.

Exceptional reliability

**Exceptional finishing**

Choose from a huge diversity of in-line finishing possibilities including perfect binding. Intelligent Registration technology ensures impressive results print after print.

For a huge variety of applications.
